Expertise and meaningful solutions to improve your bottom line

Today, healthcare organizations are challenged by unprecedented regulatory changes that require a dramatic evolution of business process and technology investments.

Howell Consulting Group was founded to help you meet those challenges and stay ahead of the curve in healthcare reform.

We have combined the perfect blend of rock-solid revenue cycle expertise with proven large-scale system implementation capabilities to help you achieve meaning-

ful use, ICD-10 conversion, and supercharge your EHR, no matter the size of your medical facility.

HCG is much more than a world-class staff augmentation firm; our domain knowledge of health IT projects spans every aspect of the EHR implementation lifecycle.

Our holistic approach and far-reaching capabilities allow us to deliver solutions with benefits that go beyond the traditional healthcare consulting model. The result: experienced revenue cycle specialists and

technology project managers that function as a valuable addition to your team with a focus on optimizing billing and collection practices to help grow your bottom line; comply with healthcare reform; and improve financial and operational performance so you can focus on safer patient care and improved outcomes.
